ROLE HIGHLIGHTS

Data Analytics professional with experience in Procurement Operations, Business Intelligence, Machine Learning, and Data Visualization. Skilled in Python, SQL, Power BI, Excel, and Predictive Analytics for transforming operational and procurement data into actionable business insights. Experienced in vendor evaluation, spend analysis, inventory monitoring, KPI reporting, and dashboard development to support data-driven decision-making and process optimization.

EXPERIENCE

BIGZEL TECHNOLOGIES | DATA SCIENCE INTERN

Jan 2026 – Present | Hybrid | Chennai

- Cleaned and analyzed datasets using Python, SQL, Pandas, and NumPy to support data-driven insights and predictive analytics.
- Developed Power BI dashboards and KPI reports to monitor business performance, enabling stakeholders to track key operational metrics effectively.
- Applied statistical analysis and machine learning techniques to identify trends, anomalies, and predictive patterns supporting business insights.

ES HOSPITAL | BIOMEDICAL ENGINEERING INTERN

May 2023 – Jul 2023

- Assisted vendor evaluation, quotation analysis, and procurement documentation processes to support cost-effective purchasing decisions.
- Analyzed inventory utilization and maintenance expenditure data using Excel to support procurement planning and resource allocation.
- Collaborated with procurement, engineering, and clinical teams to improve equipment availability and support operational efficiency.

PROJECTS

AUTISM SPECTRUM DISORDER PREDICTION USING MACHINE LEARNING | **TECH STACK:** PYTHON | PANDAS | SCIKIT-LEARN | SVM |

SELECTKBEST

- Analyzed 700+ clinical assessment records and performed preprocessing, feature engineering, and feature selection to improve model performance.
- Developed and optimized a Support Vector Machine (SVM) classification model achieving 89 percent prediction accuracy.
- Evaluated model effectiveness using accuracy, precision, recall, and confusion matrix metrics.

EMPLOYEE ATTRITION ANALYSIS AND PREDICTION | **TECH STACK:**

PYTHON | SQL | POWER BI | MACHINE LEARNING

- Conducted exploratory data analysis to identify key factors influencing employee attrition and workforce retention.
- Built predictive models to classify attrition risk and support proactive HR decision-making.
- Designed Power BI dashboards visualizing workforce KPIs, attrition trends, and retention insights.

EDUCATION

BHARATHIDASAN UNIVERSITY

MASTER OF BUSINESS

ADMINISTRATION

| Finance Management | (Expected 2027)

ANNA UNIVERSITY

| **Chennai Institute of Technology**

BACHELOR OF ENGINEERING

| Biomedical Engineering | CGPA:

8.5/10

Chennai

SKILLS

PROGRAMMING

• Python • SQL • Java

ANALYTICS

• Data Analysis • Exploratory Data Analysis (EDA) • Data Cleaning • Feature Engineering • Statistical Analysis • Predictive Analytics • Machine Learning

VISUALIZATION

• Power BI • Excel • Tableau

LIBRARIES

• Pandas • NumPy • Scikit-Learn • Matplotlib

PROCUREMENT

• Direct Procurement • Vendor Evaluation • Inventory Monitoring • Spend Analysis • KPI Reporting

TOOLS

• MySQL • Git • GitHub • Jupyter Notebook • UIPath

ERP

• SAP Ariba • SAP (EHP-7[MM module])

KEY ACHIEVEMENTS

• Achieved 89 percent accuracy in a healthcare machine learning prediction model.

CERTIFICATIONS

• **Certificate in Data Science and AI** | Course-Inn Academy, Chennai

• **Cisco Python Essentials**

• **Database Management Systems (DBMS)**

• **UIPath Robotic Process Automation**
